

UniformDesk

Supplier Staff User Manual — issue desk, still owed, reports & slips

Step-by-step guide for co-issue on admission day

How to use this manual

Read **What you need before you can issue**, then **Co-issue**. If stock is empty, ask admin to **Post to campus stock** on the delivery note. Orders and invoices are not part of the staff desk.

Contents

1. Your role in UniformDesk

16. Quick menu map
17. Desk checklist

1. Your role in UniformDesk

UniformDesk is the **supplier operations portal** for school uniforms.

As **staff**, you run the **co-issue desk** at the campuses your admin assigns to you. You:

- Issue uniforms to students (full kit or partial)
- Record payment **method** and **reference** (not an amount)
- Follow up **still owed** students when stock or sizes were short
- Check **issued today** and **stock on hand** for your campuses
- Open issue slips to review or print

You do **not** set up schools, products, kits, deliveries, stock posting, invoices, team, or branding. That is the **supplier admin** job.

Role	What they do
Admin	Setup, team, DN + post to campus stock , catalogues, optional orders/invoices
Staff (you)	Issue, still owed, reports, slips — only on assigned campuses

Phase 1 rule: schools do **not** log in. Your supplier team runs the desk.

2. Abbreviations and terms

Abbreviation / term	Meaning
SKU	Stock Keeping Unit — product code on stock and reports (e.g. BLZ - NVY).
DN	Delivery Note — how stock is packed for a school (DN - 2026 - ...). Admin manages these.
Post to campus stock	Admin action on a DN that puts sizes on the campus ledger. You cannot do this — ask admin if stock is zero.

Abbreviation / term	Meaning
PO	Purchase Order — optional; admin only.
INV	Invoice — optional bill; admin only. Not needed for your issue desk.
KES	Kenyan Shilling — optional amount on issue for Cash-up ; method + reference still required.
M-Pesa	Mobile money. On issue, choose it as method and type the code in reference .
Campus	A school you are assigned to work at.
Co-issue	Issuing the admission kit — your main job.
Still owed	Students whose kit is not fully issued (incomplete).
Kit	Named admission set (e.g. Form 1 Girls).
Slip	Issue record / printout with your name as issuer.
Ref / reference	Receipt number, M-Pesa code, or similar — with payment method; amount (KES) is optional.

School **codes** (e.g. GFS) are short school IDs.

3. What you need before you can issue

Your desk only works when admin has finished the short setup path:

```text

Admin: School → Products → Catalogue + kit

→ Delivery note → Post to campus stock

→ Assign you to that campus on Team

You: Login → Issue → Student → Kit → Method/Ref → Confirm

```

Ready?	Check
Campus assigned	School appears on Issue (or auto-selected)
Stock available	Reports → Stock on hand shows sizes
Kit ready	Kit loads on the issue form

If stock is empty, ask admin to open the DN and click **Post to campus stock** — not Orders or Invoices.

4. Sign in and find your way around

Sign in

- 1 Open the login page (for example <https://your-domain/login>)
- 2 Enter your **staff** email and password (from your admin)
- 3 You land on **Home — Issue desk**

School desk login is closed. If you see that message, you used the wrong account.

Password reset: ask a **supplier admin** on **Team**. You cannot reset passwords yourself.

Main navigation (staff)

Menu	Purpose
Home	Issue desk overview and shortcuts
Issue	Co-issue uniforms
Still owed	Incomplete kits
Reports	Issued today and campus stock
Activity (More)	Organisation timeline (read)
Notifications (More)	Alerts (read — some links are admin-only)
Search (More)	Lookup by keyword / document number

You will **not** see Schools, Products, Orders, Deliveries, Invoices, Team, or Branding. Phone dock matches the desk: Home, Still owed, Issue, Reports.

Theme and sign out

Theme in the header is personal preference only.

Account menu → **Sign out** — always sign out on a shared counter.

5. Campus access (which schools you can work on)

Your admin assigns campuses on **Team**.

Your campuses	On Issue / Still owed / Reports
One	Auto-selected — no picker
Several	Picker shows only your schools
None	Cannot issue until admin assigns

If a school is missing from the picker, you are not assigned to it — even if you are standing at that school.

6. Co-issue on admission day

Path: **Issue** (/supplier/issue)

Before you start

- Assigned to today's campus
- Stock visible on **Reports** for key sizes
- Printer tested (A4) if you will print slips

Issue steps

- 1 Open **Issue**
- 2 Pick school if you have more than one campus
- 3 Find the student **or** enter a new one (optional parent name / phone)

- 4 Load a **kit**, or adjust lines, sizes, and quantities
- 5 On each line tick **Issue now**, or untick to **Hold** (still owed)
- 6 Set **money status** (Unpaid / Paid / Deposit / Waived). Enter **payment method** and **reference** when issuing stock or recording payment; hold-only can skip method
- 7 Confirm

What happens:

- **Slip** created with **your name** as issuer
- Issued lines reduce campus stock
- Held lines and shortages go to **Still owed** with size (when known) and money status
- **Kit status** shows owed / paid / hold

Tips

- One queue per desk so staff do not overlap students
- Stock moves only on **Issue now**
- Use **Hold** with **Paid** when collecting later; unpaid holds stay off the paid-not-collected report
- Optional KES amount supports **Reports** → **Cash-up**

If something blocks you

Situation	What to do
No campuses	Ask admin → Team
School missing	Ask admin to assign that campus
Kit / items missing	Ask admin → Catalogue & kits
Stock zero / too low	Ask admin → DN → Post to campus stock (or new DN)
Wrong school selected	Change campus in the picker

7. Issue slips

From Issue / Reports → open a slip (/supplier/slips/...).

Review what was issued, payment method/ref, then **Print**.

Only slips for your assigned campuses open.

8. Still owed

Path: Still owed (/supplier/incomplete)

- 1 Select school if needed
- 2 Review the queue (size and Paid / Unpaid / Deposit chips when known)
- 3 **Issue what's left** → opens Issue with that student and owed lines loaded
- 4 **Print list** for paper follow-up

Use after a busy morning, when a size runs out, or at end of day.

9. Reports

Path: Reports (/supplier/reports)

View	What you see
Issued today	Who received what, method/ref, issuer
Stock on hand	Campus balances (view-only)
Paid not collected	Paid items still owed (aging)
Cash-up	Today's desk payments by method

Print report for clean A4.

You cannot edit stock here — ask admin to post a DN if balances are wrong or empty.

10. Home (Issue desk)

Path: Home (/supplier)

Shortcuts: Co-issue, Reports, Still owed.

Glance numbers (schools, deliveries, orders, invoices) are **read-only context**. You cannot manage those screens.

11. Activity, notifications, and search

Org-wide (not limited to your campuses). Useful for awareness.

- **Activity** — timeline (dispatches, issues, stock posts)
- **Notifications** — some links are admin-only (e.g. deliveries). Note the alert and tell admin
- **Search** — schools, **SKU**, **PO-...** / **DN-...** / **INV-....**. Opening admin pages may fail; use for reference only

12. Printing

On-page **Print** button; **A4 portrait**.

Document	Where
Issue slip	Slip detail
Still owed list	Still owed
Issued / stock report	Reports

13. What you cannot change (ask admin)

Need	Ask admin to use
Access to another school	Team → campus access
Password reset	Team
New school / catalogue / kit	Schools → Catalogue & kits (admin selects products)
New SKU or price	Products
Put stock on campus	Deliveries → DN → Post to campus stock
Billing / invoice payment	Invoices
Branding	Branding

Opening those pages as staff usually shows **not found**. That is normal.

14. Admission day rhythm

Before parents arrive

- 1 Sign in — correct campus
- 2 **Reports** → **Stock** — note tight sizes
- 3 Open **Issue** ready
- 4 Printer + paper
- 5 Agree queues with other staff

During issue

- 1 Stay on **Issue**
- 2 Confirm sizes before submit
- 3 Method + reference every time
- 4 Print slip when needed
- 5 **Still owed** when stock runs short

End of day

- 1 **Reports** → **Issued today** → print if required
- 2 **Still owed** → print list
- 3 Tell admin which sizes / SKUs blocked you (they may need another DN + post stock)
- 4 Sign out

15. Common problems and fixes

I cannot see the school I am standing at.

Ask admin → **Team** → tick campus → **Save campuses**.

Issue says I have no campuses.

Admin has not assigned any schools yet.

Stock shows zero but a delivery arrived.

Admin must open the DN and click **Post to campus stock**. You cannot post stock.

Another staff and I overlap students.

Split queues (class, stream, or admission number range).

I issued the wrong size.

Stop and tell your admin/lead. Do not invent a second issue without guidance.

Search / notification link is missing.

Admin-only target. Note the number and ask admin.

Login says school desk is closed.

Use your supplier staff email.

I forgot my password.

Only an admin can reset it on **Team**.

Can I work at two schools the same day?

Yes, if both campuses are assigned. Switch in the picker.

16. Quick menu map

Menu	Staff	Typical job
Home	Yes	Issue desk start
Issue	Yes	Co-issue
Still owed	Yes	Incomplete kits
Reports	Yes	Issued + stock
Issue slips	Yes (your campuses)	Review / print
Activity / Notifications / Search	Yes (read)	Awareness
Deliveries / Post stock	No	Ask admin
Schools / Products / Orders / Invoices / Team / Branding	No	Ask admin

17. Desk checklist

First day on UniformDesk

- ☐ Staff email + temporary password
- ☐ Signed in
- ☐ My campuses appear on **Issue**
- ☐ Stock visible on **Reports** (admin posted DN)
- ☐ Practised one test issue (with admin approval)
- ☐ Opened a slip and printed once
- ☐ Know who to call for password / stock / campus problems

Every admission day

- ☐ Signed in on the counter device
- ☐ Correct campus
- ☐ Stock checked for key sizes
- ☐ Printer ready
- ☐ Queue rules agreed
- ☐ End of day: issued report + still owed list + sign out
